

NAEP 2026 in Minnesota

Building Your School Team

Assessment Program: Main | Administrative Model: NAEP Devices

NAEP depends on school staff to provide vital information and support to make the NAEP administration a success. Here’s what you need to know about the roles that form the School Team.

The School Team is an important part of the NAEP assessments. The School Team is mainly responsible for providing information and preparing the school for the NAEP administration; as well as assisting on the assessment day. While the only required roles to be assigned are the School Coordinator and School Principal, additional school staff can be assigned to the other available roles to help with NAEP. Depending on the size of the school, staff may be assigned to more than one role.

When building your school team, consider the following:

- The School Coordinator and School Principal are the only roles that must have a person assigned to them. Note: it is optional for the Principal to activate their AMS account.
- The School Coordinator will be responsible for completing all the preassessment activity tiles.
- Some preassessment activities can be delegated to other school staff. The optional roles of SD/EL Specialist and Student Information Specialist are available for the School Coordinator to delegate specific preassessment activities too.
- Please note that NAEP policy states that all student information, must be verified at the school-level.

If you have questions, please contact your NAEP State Coordinator.

Role	Responsibilities	Assignment	Open Spots	Assignment Location on AMS	AMS Account Activation	AMS Access
 School Coordinator	Responsible for completing the preassessment activities and serves as the main point of contact for the school.  Must be on site on assessment day.
